eSchoolDocs

Presented by Rhea Dyer, M.S., CCC-SLP

eSpeech**Docs**   eOT**docs**   ePT**docs**

About eSchoolDocs

- Developed by a couple of working therapists who just wanted to spend more time treating their kids.

- Why? Because we deserve more time to do our real students in WV!
  ... We were also tired of toting around 10 pound binders everywhere.

The Basics

- Daily Service log entry and tracking
- Medicaid billing form generation
- E-signature
- Targeted Case Management
- Mass Log Capability
- Real Time Caseload Management
- SLP/SLPA Supervision
- SOAP Note format

How Does it Work?

How Does it Work?

..What did we work on last time?
Previous log summary with just a scroll!

This will also be visible to any therapist you give access to. If a child is transferred between schools, or another therapist is covering for you, they will be able to see all past notes!

How Does it Work?

Oh man...we have a snow day. I am going to have to write "Snow Day" on all my logs....

....nope! Just create a Mass Log!

Medicaid Billing

...what about calculating minutes? ..... Done!
....will it know when to bill a unit.... Yep!
.....will it bill a unit on the right day... You know it!

Targeted Case Management

Targeted Case Management

► Visually pleasing format that is consistent with TCM form
► Easy to run report
► E-Signature

SLPA Supervision

- Track direct and indirect supervision type
- Information generates End of Year Verification Report for WVDE

- Notification send to supervisor when a note is edited or completed and requires acknowledgement

My Caseload

- Real time look at your services month to month
- No more flipping through endless sheets of paper wondering "Did I get all my minutes in this month??!!
- Student highlighted in green once month is complete.

Monthly Closeout

Sign all logs and close out month to notify your administrator that your services for that month are complete.

Your month will be indicated as completed.

Administrative Reports

- Print logs in a variety of formats with various filters
- Customizable options based on needs
- Full access county-wide
- Ability to integrate with WVEIS and Online IEP
- Easily manage provider accounts, school assignments,
- and supervisors

eSpeechDocs

Hello, Rhea Dyer!
Daily Logs
Monthly Progress
Counties
Schools
Students
Accounts
Procedure Codes
End Of Month Reports
End Of Day Report

What's Next...

- Additional features and capabilities decided by county stakeholders
- Updates based on new Medicaid requirements slated for 8/1/19
- Continued enhancement of current capabilities to maximize efficiency
- Meetings with county administrators and billing experts to determine needed capabilities in the future.

Things to Remember....

- This system was designed by working WV therapists and built by a WV software company
- We have complete control over the content and capabilities of the system.
- The system is customizable! We value your expertise and ideas. Please share them so we can have a wonderful and easy program to work with!
- Our motto in building this was simplicity...everything you need, nothing you don't!
